

New 480/80R50 TM600

The ideal solution for muddy terrains with increased road performance

The original tread design of the new Trelleborg TM600 has been developed for customers needing a tire that covers the gap between the R1-W and R2 tread types. The new TM600 is the ideal solution for producers looking for versatility in their operations needing a tire for heavy, wet field operations and light road use.
